Office Action Summary	Application No. 10/661,640	Applicant(s) BARRETT ET AL.	
	Examiner Scott M. Getzow	Art Unit 3762	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

1. Claims 22-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the above claims, the electrodes should be set forth as being 'adapted to be' attached to the patient's vagus nerve, in order to avoid inadvertently claiming a part of the human body, which is, of course, non-statutory subject matter.

Claim Rejections - 35 USC § 102

2. Claims 22-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Zabara (5025807).

See previous office action.

Double Patenting

3. Claims 22-31 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-21 of U.S. Patent No. 6,622,038. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are considered to be obvious over one another.
4. Claims 22-31 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 23-37 of copending Application No. 10/661,641. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the present

Art Unit: 3762

application are considered to render obvious the structure set forth in the claims of the '641 application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

The remarks made by applicant have been considered. However, the above rejections are still deemed to be proper. Zabara is considered to encompass all of the *structure* of the above claims. Where the electrodes are located, once implanted into the patient's body, does not change the structure of the device. Such statements of placement of the electrodes are considered to be intended use only.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
